## SafetyLink Strop hook with warning tag

Secures the attachment point of the strop when not in use, ensuring the wind cannot blow the strop away from the access point.

- ❑ To be used with the first man up system.
- ❑ Please note this is not a load rated anchor, only to be used as an accessory to secure the strop.
- ❑ Hook can be secured with 2 screws or 2 rivets.
- ❑ Sprung Gate for easy and secure use.

## Benefits of choosing SafetyLink:

- ❑ Used as the first man up system; reduces the amount of step anchors required.
- ❑ Sizes range from 1m, 1.5m, 2m, 2.5m, 3m, 3.5m, 4m, 4.5m, 5m and 6m. Contact SafetyLink for site specific required lengths.
- ❑ Quicklink must be attached to a load rating anchor.
- ❑ Attachment end should be secured with a strop hook when not in use to ensure it can be accessed from a safe area for next use.

## SafetyLink will provide you with the following:

- ❑ All products tested and manufactured to Australian and New Zealand Standards.
- ❑ All distributors and installers are trained to use SafetyLink products.
- ❑ Supply installation guides, testing results and product sheets.
- ❑ Products tested using a qualified and reputable testing authority.
- ❑ Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- ❑ Installers are qualified to do yearly inspections on your anchors as per Australian and New Zealand Standards.
