Innovative  
Fall Protection

Specifically for use with permanent horizontal height safety lifeline systems into concrete, must be chemically fastened.

Equipped with an engineered energy absorbing region to minimise loads on users and structures in the event of a fall.

Continuous connection with 8mm stainless steel cable, utilizing the FrogLine Shuttle.

The FrogLine horizontal lifeline uses up to four users per system, two per span.

- 🔗 Patented low profile design.
- 🔗 Fast simplified installation.
- 🔗 Advanced shock absorbing serpentine.
- 🔗 Innovative built-in fall indicators.
- 🔗 Solid 316 stainless steel components.
- 🔗 Quick connect shuttle.
- 🔗 Smooth transition over intermediates.

## Benefits of choosing SafetyLink:

Innovation and attention to detail is always foremost in our minds when designing new products. The FrogLine lifeline demonstrates this with its intricate tab features. These tabs provide stability whilst the line is in tension, in addition to this they act as a fall indicator when removed from their initial position.

The FrogLine curved profile, while smart in its simplicity provides the initial shock absorbing capabilities in the event of a fall. Further extension is provided in the serpentine shapes which progressively dissipate and absorb the energy whilst retaining their strength. This duality of function is why the FrogLine design surpasses all its competitors in the field.

*SafetyLink's horizontal lifeline systems make traversing along our lifelines simple and easy, eliminating the need to disconnect from the line, our intermediate and corners are designed so our innovative shuttles can glide freely.*

View FrogLine In Use

SafetyLink will provide you with the following:

- 🔗 All products tested and manufactured to Australian and New Zealand Standards.
- 🔗 All distributors and installers are trained to use SafetyLink products.
- 🔗 Supply installation guides, testing results and product sheets.
- 🔗 Layout Design Service providing compliant roof safety systems.
- 🔗 Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- 🔗 Installers are qualified to do yearly inspections on your anchors as per Australian and New Zealand Standards.
