# Adventure Harness

## Full Body Safety Harness

### Adventure Harness

The SafetyLink full body Adventure Harness has been specifically designed for the Outdoor Recreation Industry, and has been tested to Australian and New Zealand standards.

- One size fits all, highly adjustable.
- 15kN rated front waist and rear dorsal attachment points.
- With two adjustable waist buckles as well as leg, chest and rear adjustment buckles creating maximum user adjustment.
- Wide 45mm heavy duty webbing with secure fast adjustment buckles.
- Contrasting colours distinguish the top and the bottom of the harness for ease of fitting as well as clear inspection of the critical stitching.
- The sturdy design incorporates structural webbing from the rear of the leg loops right through to the dorsal attachment point creating a safer and more comfortable harness.
- Traceability label pack includes a page that can be easily marked with site specific traceability documentation.
- Certified to AS/NZS 1891.1

### Benefits of choosing SafetyLink:

SafetyLink's dedicated design team have been working vigorously over the past decade, creating a multitude of products to suit any working at heights scenario.

SafetyLink supply all height safety equipment to all industries - buildings, commercial, recreational and industrial sites. From a series of anchor points to a complete network of systems, SafetyLink has you covered.

# Recreational

## Outdoor Hardware

### Multi Point Pulley
