HYDRAJAWS TESTER

M2000 Scaffold Tie Tester Kit

The Hydrajaws M2000 Scaffold Tie Tester kit will test all types of anchors up to a maximum tensile load of 25kN. The three-legged height adjustable load spreading bridge keeps reaction loads away from the fixing allowing for consistent results. Trusted by the best scaffolding companies in the world, the M2000 Scaffold Tie Tester Kit is an essential tool for any scaffolder wanting to comply with current health and safety practices. Easy to use and easily transported, it comes complete with a comprehensive user manual and the backing and support from our technical team at Hydrajaws. Supplied with a 12-month calibration certificate, the gauge is detachable enabling it to be returned to Hydrajaws for recalibration ensuring its accurate performance for years to come.

SCAFFOLD TIE TESTER KIT FEATURES

- Detachable dual scale 25kN Analogue or Digital Gauge.
- The 2020 Load spreading bridge features height adjustable legs with pin arrangement in four positions with swivel feet giving 15mm of fine adjustment
- Turning Handle with 22mm (7/8") integrated nut (for use in confined spaces)
- Hydrajaws gauge calibration certificate (valid for 12 months)
- The tester is pre-assembled and accessories can be quickly changed with ease
- Bolt tester adaptor with M12 locking adaptor
- M16 Threaded stud adaptor
- M16 Hexagon Set Screw
- M16 Threaded Stud
- Robust carry case with full operating instructions.

TECHNICAL DATA

- Pull-out load range: 0-25kN (5620 lbf)
- Up to 50mm stroke (1.97")
- Weight: Tester only 2.2kg (4.85 lbs)
- LSB dimensions between feet edge: 116mm (4.57")
- Case dimensions: 571 x 382 x 160mm (22.48 x 15.04 x 6.30")
- Case weight: 10kg
- Oil type: ISO VG 32 Mineral Based Oil
- Oil Replenishment via supplied oil bottle with aid of piston key
- Warranty: 12 months

DATA SHEET

THE HYDRAJAWS BLUETOOTH DIGITAL SYSTEM

Record results digitally using the Hydrajaws App and manage results and reports from a remote online dashboard *(Requires a monthly subscription. Gauge, laptop and mobile not included).*

The Hydrajaws Bluetooth Digital system allows on-site pull tests to be automatically recorded and compiled into a digital report using the Hydrajaws Bluetooth Digital App on a mobile phone or tablet device. These reports can be sent directly to clients or managers and are stored in the cloud to be accessed remotely anywhere on a browser in a users own company dashboard.

The comprehensive report will include all test information including a pass or fail result, a visual results graph, fixing details, site location co-ordinates, date and time. Notes, images and photos taken on-site can be also be added.

Using the Dashboard a company administrator can review all test reports from all company users. They can also add notes to reports and send them directly to customers. The Dashboard contains all essential information including :

- All company devices and their calibration dates.
- All company users and licences.
- A GPS map containing all test sites.
- A list of Hydrajaws Approved International Service Centres.

Download the app from the Google Play Store or the Apple App Store and start your free trial.

Android Devices System: Android Version 7 OS onwards compatible mobile device with GPS. Bluetooth: Low Energy, Smart or Bluetooth 4.0+. For installation of software a data enabled SIM with email function or a connection to the Google Play Store is required. For emailing reports, a data enabled SIM with email function is required.

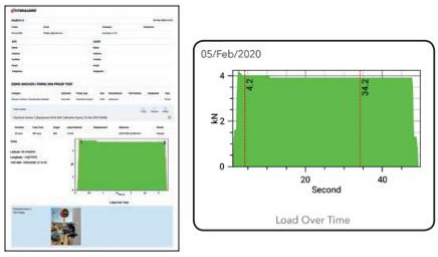
Apple Devices: Any Apple iPod, iPhone or iPad with operating system of iOS 11 onwards.
Bluetooth: Low Energy, Smart or Bluetooth 4.0+, GPS and access to the Apple app store.
For emailing reports, a data enabled SIM with email function is required.

Hydrajaws Bluetooth Digital System features

Preset test information before going on-site to save time.

Fully automated Hydrajaws app allow jobs to be performed quickly.

Your own personal company dashboard accessed remotely from the cloud.



Comprehensive digital reports are produced with result graphs which can be sent from on-site.
