

Aero-Bloc

Self Retracting Lifeline

LIGHTWEIGHT COMPACT UNIT

Ergonomically designed to be used as a single person fall protection device. The Aero-Bloc's lightweight compact design fits comfortably to the users harness keeping the Aero-Bloc out of the workers way.

- ▲ Lightweight compact unit.
- ▲ SafetyLink's Aero-Bloc has a clear durable housing for ease of unit inspection.
- ▲ External shock pack with durable cover.
- ▲ 140kg user rating when connecting to anchorages up to 600mm below the harness attachment location.
- ▲ Aluminium connectors with 16kN gate strength.
- ▲ Available in both Snap hook and Rebar hooks.
- ▲ Innovative quick connector available on the twin lifelines, allowing the users ease on connection.

SafetyLink supply all height safety equipment to all industries buildings, commercial and industrial sites. From a series of anchor points to a complete network of systems for maintenance, cleaning access and inspections, SafetyLink has you covered.

All SafetyLink products undergo extensive testing in a multitude of scenarios by accredited testing facilities and comply to Australian and New Zealand standards.

SafetyLink's experienced technical team is complemented with comprehensive installation manuals and testing certificates. We have national qualified installers keeping your assets safe.
