

HORIZONTAL LIFELINE - FrogLine DonutLink Overhead Concrete Mounted

The FrogLine Concrete Mounted System is a horizontal lifeline installed into concrete construction. The system is equipped with SafetyLink's engineered energy absorbing intermediate and end anchors to minimise loads on both the user and structure in the event of a fall. The continuous connection via the FrogLine Shuttle System on the 8mm stainless steel cable provides protection for up to four (4) users per system, two (2) users per span.

STANDARDS: The FrogLine has been tested and manufactured in accordance with AS/NZS 1891.2, ANSI Z359.6-2009, EN 795:2012, CEN/TS 16415:2013 and OSHA 1926.502.
