TUFF-POST 900

Steel Mounted with Collared Eyebolt

Tuff Post is designed to raise the height of a height safety system using a 900mm Tuff Post.

Tuff Post is a sealed unit made entirely from stainless steel. Designed to be submerged into garden beds, water and other mediums. Tuff Post is used in conjunction with a SafetyLink lifeline or energy absorbing eyebolt system.

- Tuff Post 900 raises system 900mm off the ground.
- Easy waterproofing with no base reinforcing obstructions.
- Tall enough to extend over garden beds, parapet walls, solar panels, air conditioning systems etc.
- Extends through false ceilings.
- Made from 316 stainless steel.

SafetyLink will provide you with the following:

- All products tested and manufactured to Australian and New Zealand Standards.
- All distributors and installers are trained to use SafetyLink products.
- Supply installation guides, testing results and product sheets.
- Layout Design Service providing compliant roof safety systems.
- Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- Installers are qualified to do yearly inspections on your anchors as per Australian and New Zealand Standards.
