ConcreteLink Energy Absorbing Plate

The ConcreteLink Plate is a diverse concrete mounted anchor allowing you to attach to a multitude of locations eg. overhead, wall and floor.

- ☒ Low profile.
- ☒ 316 stainless steel.
- ☒ Multi-directional fall protection.
- ☒ Patented energy absorbing design.
- ☒ Suitable for installation in concrete or steel structure.
- ☒ Energy absorbing design that reduces the load on the fasteners and structure in the event of a fall.
- ☒ Twin fastener design that allows for proof loading of the product without damaging the energy absorbers.
- ☒ A fall indicator which demonstrates when the anchor has been over loaded.
- ☒ Single person energy absorbing anchor, rated at 15kN.
- ☒ Compliant with AS/NZS 5532:2013.

SafetyLink will provide you with the following:

- ☒ All products tested and manufactured to the current Standards.
- ☒ All distributors and installers are trained to use SafetyLink products.
- ☒ Supply installation guides, testing results and product sheets.
- ☒ Layout Design Service providing compliant roof safety systems.
- ☒ Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- ☒ Installers are qualified to do yearly inspections on your anchors as per the current Standards.
