

# Ladder Systems

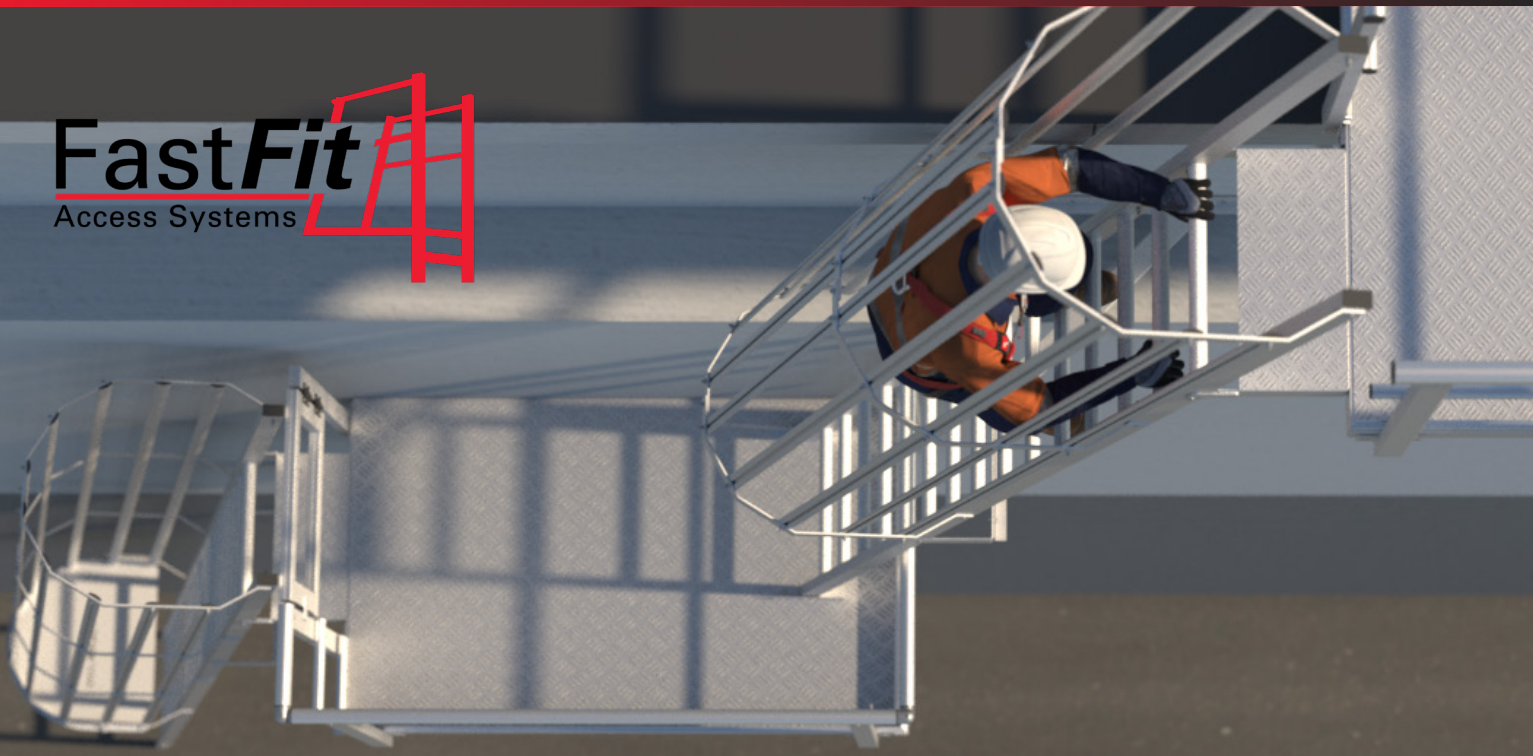

SafetyLink's team have been working tirelessly to bring you our NEW FastFit Ladder Access System.

We listened to our customers and designed a system that minimizes installation time whilst complying to the current AS1657:2018 standards.

We have also done the hard work for you, predrilled platforms, ladderheads and landings are only a sample of the products we have modified to reduce installation times and improve the functionality required to get the job done.

SafetyLink's NEW FastFit Ladder Access System is designed to achieve access to a wide range of scenarios, forming a complete system.

# TAKE THE STEP WITH CONFIDENCE

▲ Australian Made.

- 🔧 SafetyLink's NEW FastFit Ladder System is designed to achieve access to a wide range of scenarios, forming a complete system.
- 🔧 Robotic welded components ensuring a consistent durable quality product.
- 🔧 Strong ladder stiles reducing flex.
- 🔧 New step through platform on parapet walls, utilising handrails ensuring fall protection standards are met.
- 🔧 Redesigned lockable ladder door, manufactured to be lighter and easier to remove and lock into place.
- 🔧 Flat pack rest platform, construct on site with access to either left or right.
- 🔧 Pre drilled holes in sections, reducing swarf on site and dramatically reducing installation time.
- 🔧 FastFit Ladder System bolts together with pre drilled holes using 8mm bolts throughout system, enabling an uncomplicated installation.
- 🔧 Drill grooves where appropriate to assist in aligning tek screws.
- 🔧 Ergonomically designed ladder rungs ensuring a secure hand grip.
- 🔧 Strong sturdy compliant system, backed with comprehensive installation guides and technical support.
- 🔧 Complies with AS1657:2018 standards.

## SafetyLink will provide you with the following:

- 🔧 All products tested and manufactured to the current Standards.
- 🔧 All distributors and installers are trained to use SafetyLink products.
- 🔧 Supply installation guides, testing results and product sheets.
- 🔧 Layout Design Service providing compliant roof safety systems.
- 🔧 Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- 🔧 Installers are qualified to do yearly inspections on your anchors as per the current Standards.
