SAFETYLINK
A DELTA PLUS GROUP COMPANY

The patented ConcreteLink one piece unit is an anchor point designed for use in concrete, where the eyebolt will remain exposed for attachment.

- ▲ 360 degrees.
- ▲ Low profile.
- ▲ 316 stainless steel.
- ▲ Multi-directional fall protection.
- ▲ Single person anchor, rated at 15kN.
- ▲ Must be chemically fastened.
- ▲ Fall arrest and rope access anchor.

Benefits of choosing SafetyLink:

SafetyLink's ConcreteLink one piece unit is a fall arrest and rope access anchor, incorporating a shorter design enabling the eyebolt to withstand a live load.

The collared eyebolt and concrete insert are cast together making a simpler easier unit to install. The ConcreteLink one piece unit is used for rope access where the eyebolt will remain exposed for attachment.

Complies with Australian and New Zealand Standard AS/NZS 1891.4 and EN 795:2012, CEN/TS 16415:2013, AS/NZS 5532-2013.

Load Testing of ConcreteLink One Piece Unit

SafetyLink will provide you with the following:

- ▲ All products tested and manufactured to current Standards.
- ▲ All distributors and installers are trained to use SafetyLink products.
- ▲ Supply installation guides, testing results and product sheets.
- ▲ Layout Design Service providing compliant roof safety systems.
- ▲ Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- ▲ Installers are qualified to do yearly inspections on your anchors as per Standard.
