*A height safety anchor point for use on particle board roofs above rafters, will arrest from any direction.*

- ▲ Fast simple unit for installation, fall protection whilst working at heights.
- ▲ Low profile reflective design is a plus for any commercial or residential enterprise wanting to maintain an aesthetically pleasing façade.
- ▲ Dynamic design reduces the load back onto the structure and person attached to the anchor.
- ▲ Install using seven 14 Gauge Roofing Screws 50mm long. Must be used with an energy absorbing lanyard with a maximum arresting force of 6kN.
- ▲ Anchorage strength 5000LBS. ▲ Anchorage strength 5000LBS.

*SafetyLink's roof anchors are multi-directional. A fall is never an anticipated event when working at heights, therefore the direction of your fall cannot be accurately predicted. All SafetyLink roof anchors are designed and tested as multi-directional.*
