SafetyLink's rafter mounted anchor TileLink has set the new benchmark in the field of height safety.

The TileLink™ is quick to install, with amazing performance ability, the patented TileLink™ is the perfect anchor for tile roofs. The unique design is practically invisible when looking at the roof.

The TileLink™ fits snugly between the existing tiles ensuring no waterproofing issues. There is no need to cut the sarking as the design of this unique roof anchor, eliminates any future potential roof leaks. A perfect solution in our current climate protecting our investments and working at heights safely.

SafetyLink's roof anchors are multi-directional. A fall is never an anticipated event when working at heights, therefore the direction of your fall cannot be accurately predicted. All SafetyLink roof anchors are designed and tested as multi-directional.

SAFETYLINK

A DELTA PLUS GROUP COMPANY

Benefits of choosing SafetyLink:

SafetyLink's rafter mounted roof anchors are designed for use on timber rafters with tiled roofs. Our unique designed roof anchors provide restraint and fall arrest safety for residential, commercial and industrial building sites. SafetyLink's roof anchors patented designs absorb energy, which means if in the event of a fall the anchors absorb the energy, reducing risk of injury to the person and damage to the structure.

SafetyLink's designs represent a perfect engineered solution for working at heights and roof safety fall protection.

- ▲ Multi-directional fall protection.
- ▲ Single person anchor.
- ▲ Rated at 15kN.

SafetyLink will provide you with the following:

- ▲ All products tested and manufactured to current Standards.
- ▲ All distributors and installers are trained to use SafetyLink products.
