Standard Compliance

Manufacturing Standard

This concrete anchor is compliant with AS5532:2025 and can be loaded in the directions shown in the product instruction handbook, download copy at www.safetylink.com.

Selection, Use and Maintenance Standard

To be compliant with AS/NZS1891.4:2025, when fixed with Chemical or Friction fasteners into concrete, all single fix concrete anchor shall be proof tested annually to 50% of its design load. Records of this proof test shall be kept and made available for future inspections. For multi fix concrete anchor an exemption may apply from annual proof testing if the appropriate information and documentation have been recorded at the time of installation and is available for future inspections. See AS/NZS1891.2025 Section 8 for further details.

All products must be installed in accordance with SafetyLink's installation handbook, using only products supplied by SafetyLink Pty Ltd.
